

Verso 2

I'll take your pain and make it mine
I'll change your darkness into light
I'll lead you through the ocean of night
I'll cherish you till the end of times

It's love, love beyond life

as tears and lives go by
through the wings of our darkened souls
now you're running with me, if only
hey! your feet would never touch the ground,
or slightly

I'll chase with you to the edge of night
I'll trade our shame and make you mine
I'll break these demons in fountains of light
I'll bring you through these poisoned skies
I'll teach you how to live and let die

Now it's love, love beyond life
It's love, love... every time.

► **Our Poisoned Faith**

..I can't forgive
this Poisoned Faith
And I can't forget you..

all the Palazzos
resound with your voice
and all the Museums
display your pale glow
now you're no longer with me
they had you sacrificed

all my angels cry
all my angels bleed
all my angels fall and burn

I can't forgive

this Poisoned Faith
and I can't forget you

all my angels cry
all my angels bleed
all my angels fall and lie

all the Cathedrals
light up with your books
and all the Garden ponds
reflect your faint smile
now you're no longer with me
they had you sacrificed

all my angels cry
all my angels bleed
all my angels fall and burn

I can't forgive
this Poisoned Faith
and I can't forget you

all my angels cry
all my angels bleed
all my angels fall and lie

all my angels cry
all my angels bleed
all my angels fall and burn
for this Poisoned Faith

► **This Eternal Life**

I've survived through this lonely night
I've defied dawn's menacing glow
I've hidden Plague on earth
I've turned heavens to hell
you weren't born in this thousand years

I've been waiting for fire

I've been preying on this cold night
a trail of pallid brides
I could burn for a thousand years

I've been praying for fire
I've been praying for fire

Oh, it's Heaven or Hell
this Eternal Life
my Condemnation
Oh, it's Heaven or Hell
this Damnation of
Eternal life, I can't tell

I've been waiting this hour
I've been waiting for so long
I've been waiting for you
I've been watching the world
for this moment you came to life
I've been standing by your gates
I've been waiting in the cold night
recalling every bride
wishing I could ever burn with you

I've been praying for fire
I've been praying for fire

Oh, it's Heaven or Hell
this Eternal Life
my Condemnation
Oh, it's Heaven or Hell
this Damnation of
Eternal life, I can't tell

I've been waiting for fire
I've been waiting for fire

Oh, it's Heaven or Hell

this Eternal Life
my Condemnation
Oh, it's Heaven or Hell
this Damnation of
Eternal life, I can't tell

► **My Angels Rise**

I heard a voice.. in darkness
I heard a voice.. in the dark
I heard a voice.. in loneliness

I'll show you the light in Darkness
I'll show you the light in the Dark
I'll show you the light in your Night
I'll show you the light in Loneliness

My Angels rise tonight
My Angels rise to light
My Angels rise to light
My Angels rise to.. Night

I saw the lights shine in darkness
I saw the shades move in the dark
I heard the cries voiced at the night
I felt your heat till my loneliness

My Angels rise tonight
My Angels rise to light
My Angels rise to light
My Angels rise to.. Night..

► **Darkened**

I know these moments to darken your dreams
I know these feelings to poison your nights
I know these questions to haunt you forever...

don't let their lights reach on us
don't let their cries catch with us
we're so old and glorious
