

Recto 1

something must've gone wrong outside
is this all there is
times are changing so fast these days
we could dance away
we have no hold of things here

"trade your dreams in..."
the Mnemo libraries add
hey! Look how they're sampling in
hmm... to be or to be not
here come the "servo beings"
they won't function like we do
their world is like Ancient Rome
hmm... to have or to have not

I was an Icon
a God made of flesh
a dream advert Doll
a Priest without faith

... you said:
"just where are we now
those lost illusions
those dreams that grew cold"
me I'm so tired of this
I won't hurt anymore"...

I was an Icon
a God made of flesh
a dream advert Doll
a Priest without faith

now, say it!

► *Alien Dream*

Switch off Me
Switch off lights
Switch off sound
Switch off you
Switch off Me
a ghost story
There must be
a place for us

You and me
lies, recall
remind me that
time has died somewhere
Nothing dies
just memories
lines we... this
relation wall

I need to...
I can't die
I need "You" 's, like words
I don't know
We should we
name our Gods, so
this story
would stay yours

... It's all about again
... An alien dream

All songs recorded live

► *Mary & John (Radio plays)*

Mary was in love with John
and John he didn't feel at ease
he felt at odd with the life he lived
there's no "Flying to Mars" over here
Not like in the books he read in the late 50's
telling stories of young hearts and paradise lost
he once thought he could write a story too
about long gone heroes, a modern sci-fi tale
Mary was in love with John
and John he didn't feel at all
he spent his life killing time, smoking cigarettes
in a cold blind room with a spoiled back street view

Mary was in love with John ...

Radio plays
They would fill every home
Radio plays
Like time healed everything
Home-maid stories...

Mary was in love with John
and John he made her feel at ease
it had felt so bad watching him slowly waste
there's no second chance over here
Not like in the books she read in the late 60's
telling stories of real life and paradise found
she never saw John as a "saviour"
just a gentle father to her sons
Mary was in love with John
and John he didn't feel how strong
she now spends her time at the garden with the children
sometimes listening wind bring like laugh bursts of John

Mary was in love with John...

Radio plays
They would fill every home

Radio plays
Like time healed everything
Home-maid stories...

Radio plays...

► *Simulacra*

we have, we have
an every man's dream
we have, we have
the real fantasy maid-thing
we have, we have
Oh... it's so real it feels obscene

we have, we have
a true domestic droid
the standard production model
we have, we have
no nightmare in girl skin
no collection of wheels and wires
we have, we have
the latest attraction to see
a bit in the century

Oh... my love
if you should need love: "Love"
a plug-in to all it will take
come closer and realise
how it's done in no time

we have, we have
the genuine snake-believe
a steel angel built with soul
the first mechanics alive

you'll see, you'll see
her replay your scene
Oh! how she'd learn to smile and cry
